

## *Editorial note and Conference Highlights of Research Journal of Oncology*

We are pleased to mention that during the year 2020, all issues of volume 4 were published online successfully within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online. All published articles of this journal are included in the indexing and abstracting coverage of Google Scholar, Genamics JournalSeek, China National Knowledge Infrastructure (CNKI), CiteFactor, Directory of Research Journal Indexing (DRJI), IndianScience.in, Jour Informatics, CiteSeerx, American Standards for Journals and Research (ASJR), InfoBase Index, Secret Search Engine Labs During the calendar year 2020, IPAPP received a total of 60 papers, out of which few articles were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2020 around 50 articles were subjected for publication after they are accepted in the peer review process. In the 6 issues of Volume 4 published during the year 2020, a total of 60 articles were published (at an average of 15 articles per issue) of which, articles were published from authors all around the world. A total of 32 research scientists from all over the world reviewed the 60 articles published in volume 4. Average publication lag time of an article was further reduced to 2-3 weeks. Research Journal of Oncology also announces its new association with Imed group for Archiving, Journal maintenance, financial purpose and support. However the journal will be running its original website <https://www.imedpub.com/> parallel for Editorial and review work process so as to maintain its highest standard of scientific work. I take this opportunity to acknowledge the contribution of editors and Associate Editors, during the final editing of articles published and the support rendered by the editorial assistants. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of Imed publications for their support in bringing out yet another volume and look forward to their unrelenting support to bring out the Volume in scheduled time.

Oncology and Cancer is one of the specialties which deals with the Cancer Metastasis, Stem Cell Therapy In Oncology, Cancer Molecular Diagnostics, Neuro-Oncology, Chemotherapy Applications. Clinical Oncology 2020 conference acts as a podium for bridging the gap between Academia and Industry through discussion on innovative research methods in Oncology treatment. The conference gives the best opportunity for meeting with Industrial experts, Academic speakers, Pharmaceutical Companies, Decision-makers, interacting, and defining novel prospects in the Cancer business. It helps in dynamically adding value to biomedical, pharmaceutical, R&D businesses. Novel approaches and applications about cancer treatment like the gene/drug delivery systems development and industrializing insights & gain the latest technologies about novel cancer nanotechnology. This scientific experience offers the best platform with its well organized scientific meetings to the audience which comprises interactive panel discussions,

keynote lectures, plenary talks and poster gatherings on the subjects like Cancer Metastasis, Stem Cell Therapy In Oncology, Cancer Molecular Diagnostics, Neuro-Oncology, Chemotherapy Applications and Cancer Nanotechnology.

We successfully completed Oncologists Congress 2020 Webinar which was held in November 16, 2020. The conference was held with a wide array of keynote presentations, panel discussions, workshops, and poster sessions.

We gladly announce “International Conference on Cancer Science and Research” which is scheduled to be held during April 19-20, 2021 and the event is enlightened with the theme “Cancer Research Strengthening the feature to fight against Cancer in the time of Covid-19”. Supported through the organizing committee network of renowned scientific and professional experts, it provided a platform for collaboration among colleagues, vendors and academia to reveal new innovations, solutions, ideas and emerging technologies. The proceedings will be published in the “Research Journal of Oncology”.
