

Editorial Highlights for Journal of Nanoscience & Nanotechnology Research

Sai Chandra

Department of pharmacy practice, Osmania University, India, E-mail: chandraynsai@gmail.com

Without continual growth and progress, such words as improvement, achievement, and success have no meaning. Journal of Nanoscience & Nanotechnology Research is growing continuously. It is our pleasure to announce that during year 2019, all issues of volume 3 were published online on time and the print issues were also brought out and dispatched within 30 days of publishing the issue online.

The Journals aims to flourish and to maintain the standards in research and practice, provide platform to all aspects of nanoscience such as: nanomaterial synthesis, processing, and assembly; simulation of nanostructures; nanofabrication; and various methods used in nanomanipulation and nanotechnology.

The scope of the Journal include: Nanoprobes, Nanofluidics, Nanomagnetism, Semiconductor Nanostructures, Nanoelectronics, Quantum Nanodevices, Nano-optics, Nanoemulsions, Nano-mechanics, Nanodevices, Nanobiotechnology, Nanomedicine, and Nanotoxicology.

During the calendar year 2019, IPNNR received a total around 11 articles were subjected for publication after they are accepted in the peer review process. In the 3 issues of Volume 3 published during the year 2019. Average publication lag time of an article was further reduced to 2-3 weeks.

Journal of Nanoscience & Nanotechnology Research is association with IMEDPUB journal group for Archiving, Journal maintenance, financial purpose and support of editorial and review work process so as to maintain its highest standard of scientific work.

IMEDPUB journal group has increased Readership Metrics (By Google Analytics) of Journal of Nanoscience & Nanotechnology Research which can be accessed at Google Analytics Metrics for the Health Systems and Policy Research

I take this opportunity to acknowledge the contribution of Editor in Chief: Weizhou Jiao, Professor, North University of China, Taiyuan, Shanxi, P.R., China, Saebom Ko, Research Associate, Department of Petroleum and Geosystems Engineering, University of Texas at Austin, Austin, TX, USA, Rabindran Jermy balasamy, Assistant Professor, Institute of Research and Medical Consultations (IRMC) Imam Abdul Rahman BinFaisal University (IAU), Saudi Arabia, Editora: Irina Graur Martin, Professor, Aix-Marseille University, Marseille, France, Zhaohui Yao, Professor, Department of Engineering Mechanics, Tsinghua University, Beijing, China, Yeong Suk Choi, Principal researcher, Samsung Electronics, Samsung Advanced Institute of Science, Korea, Hamid R. Arandiyani, Senior Research Fellow, The University of Sydney, Sydney, Australia, Dingsheng Yuan, Professor, Department of Chemistry and Institute of Nanochemistry, Jinan University, China, Yu Miao, Professor, smart material, structure and vibration control research, Chongqing University, China, Shiquan Wang, Professor, School of Chemistry and Chemical Engineering, Hubei University, China, Deepak Rawtani, Assistant Professor, (Nano Biotechnology) Gujarat forensic Sciences University, Directorate of Forensic Science, Gandhi Nagar, India, during the final editing of articles published. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of IPNNR, the office bearers for their support in bringing out yet another volume of IPNNR and look forward to their unrelenting support to bring out the Volume 4 of IPNNR in scheduled time.
