

Lifelong Learning in Higher Education for Nursing and Health Professionals

Toni Clayton

Southern New Hampshire University

Abstract

Commitment to lifelong learning is an expectation for nursing and other health professions. Join us for a presentation on the inspiration, planning, challenges, successes, and best practices of nursing and health professions continuing education initiative at Southern New Hampshire University. This collaboration on lifelong learning opportunities is for online learners seeking non-degree offerings and stackable credentials. The occasion to acquire additional 'just in time' qualifications, which may be required as healthcare evolves, can lead to increased quality of care provided and career advancement.

Biography:

Dr. Toni Clayton joined Southern New Hampshire University (SNHU) in 2014 as Associate Dean of Healthcare Administration and is the Vice-Chair of Global Campus IRB. In her role, she has developed curriculum, and faculty for the MS.HAN, BS.HSC, BS.HAN, BS.CHE and AA.HMA programs. She has applied in-depth knowledge of healthcare delivery systems, quality assurance, compliance, reimbursement, and healthcare economics. Dr. Clayton presented on competency-based education at the AHIMA conference and served as Co-Host representing SNHU at the International Conference on Advancement in Health Sciences Education and Professions held in Bangkok, Thailand. Her recent work HEaRT (Higher Education and Real-world training) experiential-learning model received the 2020 Online Learning Consortium (OLC) award for Innovation and 2020 UPCEA New England Region Engagement Award
