

Past Conference Report On 18th Edition of International Conference on Materials Science and Nanotechnology

Simmonn Allie

Director of Fine Treatment, United Kingdom, E-mail: finnetreatment@yahoo.com

Name of the Conference: [Nano Materials Conference 2020](#) | [18th Edition of International Conference on Materials Science and Nanotechnology](#) | January 28-29, 2019 | Barcelona | Spain

Major Keywords : [Nano Materials Conferences](#) | [Nano Materials Conference 2020](#) | [Nano Materials Meetings](#) | [Top Nano Materials Events](#)

Nano Materials 2019

Information about the Previous conference: The 18th Edition of International Conference on Materials Science and Nanotechnology was held on January 28-29, 2019 | Barcelona | Spain with the presence of professional researchers, business delegates, scientists involved in the development of high-quality education & research in all aspects. Please check the website: Separation Techniques 2019 Conference Photographs

[Nanotechnology](#) is a vast subject which covers initial stage of [engineering](#) and [technology](#) to life science parameters with the contriving of matter at atomic, sub-atomic, molecular level at [Nano scale](#) dimensions of 1-100nm. the flexibility to visualize [Nano-sized particles](#) has given rise to a range of potential outcomes in [industries](#) and [scientific ventures](#). It permits US to regulate the distinctive properties of the compounds by manipulating the matter at the atomistic level that assists within the construction of novel purposeful materials and [designed devices](#).

[Material science](#) may be a [multidisciplinary field](#) applying the synthesis, characterization and properties within the areas of [science](#) and [technology](#). the [invention](#) of latest materials in vivacious and variant disciplines of [materials science](#) and [engineering](#) is inherent with varied challenges. The challenges of the materials science ought to be sweet-faced to achieve tremendous [technological](#) achievements.

Jonathan W Cooper, National Institute of Health, USA

Jun Zhang, Harbin Institute of Technology, China

We are thankful to all our speakers for encouraging and supporting us to conduct the conference and catapulting the same to pinnacle of success.

Details about the conference:

The **Nano Materials Conference 2020** aims in bringing together from different parts of the world. World SeparationTechnique Congress aims to create a platform to have a knowledgeable discussion . The **Nano Materials Conference** has [KEYNOTE SESSIONS](#), [HANDS ON WORKSHOP](#), [SYMPOSIUMS](#), [SPECIAL SESSION](#), [SPEAKERS](#), and [POSTER PRESENTATIONS](#).

The session presented at the conference have research value and renders a great knowledge related to the field of **Nano Materials**. Meet noteworthy [Nano Materials](#) and join leading experts and allied professionals from **January 28-29, 2019 | Barcelona | Spain** to keep up with the rapidly accelerating pace of change that is already having an impact on the field of **Nano Materials** and will continue to in the future.

Conference Highlights:

- [Nano Fluids](#)
- [Nano particles application and synthesis](#)
- [Nano protonics](#)
- [Nano Fabrication](#)
- [Nano electronic Devices](#)
- [Nano remediation and matter treatment technology](#)
- [Solar cells](#)
- [Nano technology in drug delivery and cancer treatment](#)
- [Optical](#)
- [Biosensors](#)
- [Types of carbon nanotubes](#)

- [Biohybrid polymer nanofibers](#)
- [Biodegradable polymers](#)
- [Advanced Engineering materials](#)
- [Polymer-matrix nanocomposites](#)
- [Dental biomaterials](#)
- [Semiconductor materials](#)
- [Biomedical Applications of Nanorobots](#)

[Biochips](#)
