Introduction

Journal of Imaging and Interventional Radiology is a peer-reviewed and open access journal with an aim to provide rapid and reliable source of information in the mode of original articles, review articles, case reports, short communications, etc. in all areas of the field and making them freely available through online without any restrictions or any other subscriptions to researchers worldwide.

Our Journal is the best choice for interventional radiologists, radiologists, cardiologists, vascular surgeons, neurosurgeons, and other clinicians who seek current and reliable information on every aspect of interventional radiology.

This scientific publishes all relevant topics in the area of imaging and interventional radiology and the associated areas of cardiovascular imaging, oncologic interventional radiology, abdominal interventional radiology, ultrasound, MRI imaging, sonography, pediatric radiology, musculoskeletal radiology, metallic stents, renal intervention, angiography, neuro-interventions, and CT fluoroscopy along with other areas.

Its mission is to improve patient care by educating interventionists on the latest techniques in catheter-based therapies from experts in the field.

We believe that the previous volumes and issues impressed the readers a lot and helped them to enhance their scientific knowledge. Our authors have come up with very innovative ideas to treat the deadly diseases such as tumors, respiratory issues, carcinomas and hemorrhages etc.

The editorial team follows strict guidelines to avoid any potential bias and conflict of interest while reviewing manuscripts. Journal functions on principles of scientific excellence, publication ethics and transparency. I am sure that together we will make

Journal of Imaging and Interventional Radiology a truly powerful publication.

I'm delighted to be a part this journal's editorial panel. I strongly believe that this journal promotes outstanding discoveries and innovations through knowledge dissemination. I encourage and invite the scholars and the budding researchers to contribute their literature works to enhance this Journal which functions on principles of scientific excellence, publication ethics, and transparency. Your contribution is of great importance for us and it will help to establish its high standards. I am sure that together we will make Journal of Imaging and Interventional Radiology a genuine and powerful publication.

Finally, I would like to welcome you, our readers to this promising journal of Imaging and Interventional Radiology. Hope you will find amiable reading and challenging ideas from this journal.
