

Webinar on Polymer Science and Chemistry scheduled during November 18, 2020

Insights in Analytical Electrochemistry an international, peer-reviewed; Open Access journal that publishes research articles on all aspects of Analytical Electrochemistry. Analytical Electrochemistry is a scholarly open access journal provides free and unrestricted access to the published findings in the concerned domain. The removal of copyright barriers to the flow of scientific information under the norms of open access is aimed at informing and educating about the latest research in organic chemistry. Individual manuscripts submitted by authors are peer-reviewed by experts from related research area.

With the aim of accelerating the importance of studies and reports, Longdom proffers our immense pleasure and honor in extending you a warm invitation to attend Webinar on Polymer Science and Polymer Chemistry Scheduled on November 18, 2020 at London, UK. It is focusing on 'Global Gathering to discuss Polymer advancement' to enhance and explore knowledge among Chemistry and Materials Science Departments and to establish corporations and exchanging ideas. Providing the right stage to present stimulating Keynote talks, plenary sessions, Discussion Panels, B2B Meetings, Poster symposia, Video Presentations, and Workshops

Scientific session includes Polymer characterization, Materials science and engineering, Nanocomposites, Nanotechnology, Polymers synthesis, Polymerization, Biopolymers and Bioplastic, Biodegradables, Biochemistry of Polymers, Carbon chemistry, Polymer Chemistry embraces with Keynote Session, Oral Session, Poster Session, Young Researchers Session and Exhibitor Session.

Exciting platform sessions and poster sessions will reflect broad diversity of research and will include topics driving innovative efforts and provides maximal opportunity for scientific exchange respectively. Besides invited speakers, many speaker slots are chosen from submitted abstracts to ensure good representation of those who are new to the field of chemistry, young investigators, and recent results. Lively and well-attended poster sessions offer a venue where students and postdoctoral fellows can exchange ideas with each other and with senior scientists.
