

Young Scientist Awards for Euro Green Chemistry 2020

Lucian Lucia

Associate Professor, Department of Forest Biomaterials, NCSU (USA), E-mail: lalucia@ncsu.edu

Welcome to the “11th World Congress on [Green Chemistry and Technology](#)” during July 09-10, 2020 at Geneva, Switzerland, which includes prompt keynote presentations, oral talks, poster presentations, and exhibitions with the theme “Recent Innovations and Concerns of Green Chemistry towards Sustainability”.

Young Scientist Awards for Euro Green Chemistry 2020:

The Young Researchers Awards is an annual programme aimed at promoting innovative research and discovery in Green Chemistry and Technology. The Young Scientist Awards provide prizes to two graduate students normally one Master’s candidate and one Ph.D candidate.

The Young Researchers Awards are part of an global initiative to support early career researchers, Young Investigators, Post-Graduate Students, Post-doctoral fellows, Trainees, Junior faculty in recognition of their outstanding contribution towards Green Chemistry and Technology.

Eligibility:

- Participants should be below the age of 35 years.
- Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty with a minimum of 5 years of research experience.
- All submissions must be in English.
- Opportunity for young researchers to learn about the research areas of their colleagues to increase their capacity as multidisciplinary researchers.
- Presentation must be into scientific sessions of the conference.

Benefits:

- Award winners presented with recongination certificate and memento to the winners.
- Green Chemistry conferences provide best Platform for research through oral presentations.
- We can improve our Carrier with latest Technologies.
- It is a big Platform for collaboration among young researchers for better development.
- We can Share the ideas with both eminent

researchers and mentors.

- Green Chemistry and Technology is a great privilege for young researchers to learn about the research areas for expanding their research knowledge.

Criteria for Selection:

- Show your research through oral presentations.
- This forum will give relevant and timely information to those who conduct research and those who use and benefit from research.
- Develop a base for collaboration among young researchers.
- The forum will provide a great opportunity for collegial interaction with other young investigators and established senior investigators across the globe.
- Opportunity for young researchers to learn about the new research areas of their peers to increase their capacity as multidisciplinary researchers.
- Actively distribute information and promote the benefits of education and career matters.

Awards & Rewards:

- This forum will give appropriate and timely information to those who conduct research and those who use and benefit from research.
- Develop a Base for collaboration among young researchers.
- We can distribute information and promote the benefits of education and career matters.
- The forum will provide an opportunity for mutual interaction with other young investigators and established senior investigators across the globe.
- Interact and share ideas with both peers and mentors.
