- **MARKET ANALYSIS**

- 11 million children deaths every year are attributable to six causes: diarrhoea, malaria, neonatal infection, pneumonia, preterm delivery, or lack of oxygen at birth. Some of the deaths occur from illnesses like measles, malaria or tetanus. Others result indirectly from marginalization, conflict and HIV/AIDS. Global burden of Pediatric mortality is increasing drastically every year. WHO estimates that 8.8 million deaths occur annually among infant and children < 5 years of age? 3.8 million In the first 30 days of life 36% of neonatal deaths due to infectious diseases. Nearly 9 million children under five die every year. Reflecting this imperative, we believe that professionally-oriented education in to cure Pediatric diseases is essential in the training of clinicians and clinical academics who will provide the future leadership in this key area for global health.
- Toronto is the leading tourism destination in Canada, attracting more than 25 million Canadian, American and international visitors annually (Tourism Toronto, 2012). In 2012, the Toronto region welcomed 9.9 million overnight visitors. Visitors to Toronto spend about \$5.1 billion in direct expenditures during their visits. Visitors to the Toronto region support more than 329,000 people who work in tourism and hospitality. Based on 2013 estimates, Toronto welcomed 13.69 million overnight visitors. 1.42 million visitors arrived from overseas markets (all countries other than Canada and the U.S.) with a further 2.18 million Americans staying overnight – a 1.7 per cent increase over 2012 and a 9.7 per cent increase over 2010 (Tourism Toronto, 2013).The U.K. remains Toronto's largest overseas visitor market with 201,000 arrivals in 2013.
