

Past Conference Report on International Congress on Drug Delivery

Vahideh Nasr

Shahid Beheshti University of Medical Sciences, Tehran, Iran, E-mail: dft.nasr@yahoo.com

The ["International Conference and Exhibition on Pharmaceutical Nanotechnology and Nanomedicine"](#) hosted by conference series with the theme ["Breakthroughs in Pharmaceutical Nanotechnology: Advancements and Challenges"](#) was successfully executed during April 18-19, 2018, Las Vegas, NV 89123, USA. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received a commendable applaud and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Plant Science and Bio Technology.

The conference commenced with the presence of worthy Keynote forum Conference Series LLC Ltd is prerogative to thank the Organizing Committee, Editorial Board Members and Moderator – Dr. Nataliya Roth, University of Natural Resources and Life Sciences, Austria, speaker participants, poster presenters and attendees for enormous support and participation in this grand venture.

Conference series is organizing "International Conference on Nanomedicine and Drug Delivery" which is going to be held on December 01-02, 2020 Kyoto, Japan. The conference is going to cover the entire field related to Nanotechnology, Nanomedicine and Drug delivery, gene delivery, and pharmaceuticals latest research and findings. The Conference will provide a platform where research scholars and students will be able to gain knowledge about new, innovative research and findings from the eminent Scientist, Researchers and Professors.

The conference highlights of Plant Physiology 2020 are as follows:

Drug Design & Development, Computer Aided Drug Design (CADD), Biomarkers in Drug Design, Pre-Formulation & Formulation Aspects, Pharmacokinetics & Pharmacodynamics, Clinical Trails & Biotherapeutics, Innovative Drug Discovery and Nanotechnology, Novel Drug Delivery System, Medicinal Chemistry & Drug Discover Advancements, Drug Product Manufacturing, Chemical and Pharmaceutical Engineering, Pharmaceutical Regulatory Affairs, Bioequivalence Studies and Assessment, Recent advancements in BA/BE Research, Business Opportunities in Drug Delivery, NMR and Analysis of Small

Organic Molecules
